

niewdel

VERSION 2.0 · MAY 2026

Brand Guidelines

Logos, colors, and type. The visual identity for Niewdel.

LOGOS

The wordmark and the icon.

Two color variants for each mark. Pair the color with the surface: light marks on dark, dark marks on light. Never the inverse.

The wordmark 'niewda!' is displayed in a white, lowercase, sans-serif font. The letters are bold and modern, with a slight gap between the 'n' and 'i'. The exclamation mark is integrated into the 'a'.

WORDMARK · ON DARK

The wordmark 'niewda!' is displayed in a black, lowercase, sans-serif font. The letters are bold and modern, with a slight gap between the 'n' and 'i'. The exclamation mark is integrated into the 'a'.

WORDMARK · ON LIGHT

ICON · ON DARK

ICON · ON LIGHT

RULES

- **Pair color with surface.** White marks on dark. Dark marks on light. Do not invert.
- **Minimum width:** 80px for the wordmark on web. Below that, use the icon mark.
- **Clear space:** at least the height of one "n" letterform on all sides of the mark.
- **Do not** recolor, outline, shadow, stretch, rotate, or otherwise modify the mark.

COLOR

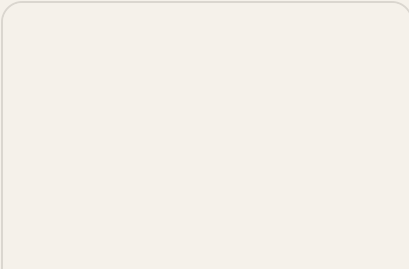

The palette.

Three surfaces plus a warm rust accent in three tones. The accent is for emphasis only, never for body text. Cyan, teal, and neon blue are not part of this brand.

SURFACES

Jet
#0D0D0D
Primary dark background

Paper
#F5F1EA
Primary light background

Ink
#1A1410
Text on paper surfaces

ACCENT · RUST
