STUDIO

Charlotte, NC

01

Foundation

Who Niewdel is, in one screen.

WHAT WE ARE

- A real **software + marketing studio**. Developers first.
- We build sites, marketing systems, and custom AI **you own**.
- **Anti-agency**: transparent, local, outcome-driven.
- Premium and modern, technical without being cold.

WHAT WE ARE NOT

- Not a template farm or a faceless agency.
- Not hype-driven, not buzzword soup.
- Not playful/cutesy, not enterprise-stiff.
- No hostage contracts, no AI slop as strategy.

VOICE LINE

"Built for how your business runs."

LOGO

The marks

Wordmark at 80px+ wide. The "n" icon below 80px. Pair color with surface, never invert.

Icon, dark surface

Icon, light surface

The word 'niewdel' in a white, lowercase, sans-serif font, centered on a dark gray rounded square background.

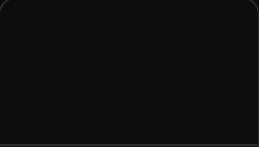

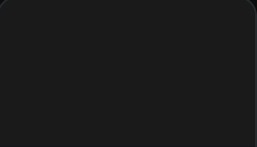

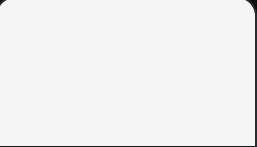

Wordmark, dark surface

Clear space: at least one "n" height on all sides. **Never:** recolor (no blue logos), outline, shadow, stretch, rotate, or place on busy imagery without a scrim.

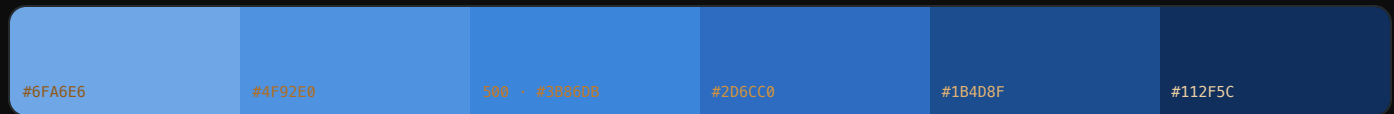

02

Color

Five core colors. Blue is the only chromatic accent, and it is for emphasis, never body text.

USAGE

- **Dark-first.** Jet is the default surface; build up with Onyx and elevated cards.
- **White-on-blue** is for buttons and large/bold text only. For body-size text, use blue text on dark, not text on a blue fill.
- On light surfaces, use **Deep Navy** for accent text and links.

03

Typography

Montserrat for everything structural, Inter for everything you read.

Aa

Montserrat

Primary. Headlines, navigation, CTAs, UI, labels. Geometric sans that mirrors the logo's clean lines.

Layout & components

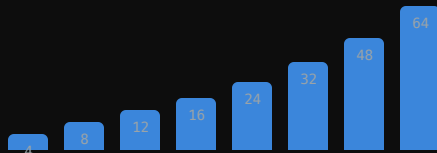

The building blocks every Niewdel surface is made of.

BUTTONS

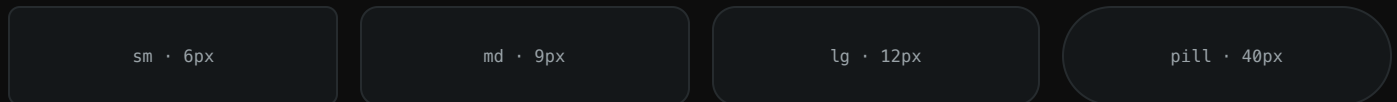

Primary = Niewdel Blue pill, white bold Montserrat, optional →. Secondary = hairline outline.

CARD & EYEBROW PATTERN

EYEBROW LABEL

A card on the elevated surface

- Blue dot bullets, not default discs.
- Onyx or elevated fill with a hairline border on dark.
- White with a light hairline on light surfaces.

05

Voice & tone

Direct, anti-corporate, outcome-first. Lead with the result, not the feature list.

Do

- Short sentences. **Bold** for emphasis. Contractions are fine.
- Lead with the outcome the client gets.
- Use our words: "you own everything," "get found everywhere," "game plan."
- Challenge weak thinking with reasoning.

Don't

- **Never use em-dashes.** Commas, periods, colons, or parentheses.
- No AI slop: "I'd be happy to," "Certainly," "Let's dive in."
- No buzzwords: "synergy," "world-class," "cutting-edge."
- Don't over-explain what the reader already knows.
