
STARTER WEBSITE • PERSONAL BRAND

Start simple. Built to grow.

A starter personal-brand website for Hyland Haus. Simple, warm, and professional. Your brand live on hylandhaus.com now, on a foundation that every later upgrade adds onto. Nothing gets thrown away or rebuilt when you're ready for more.

PREPARED FOR

Nichole Hyland
Broker/REALTOR®
Charlotte, NC

PREPARED BY

Pricing locked through
July 12, 2026

The starter site

Five pages that put Hyland Haus on the map as a brand independent of your brokerage: who you are, how you work, and one obvious way to reach you. You asked whether you can start with the lowest option and build onto it once you're able to. Yes, and that's exactly how this is designed. The site is built on the same foundation as our larger builds, so the upgrades on the last page bolt straight onto it. You pay to add, never to redo.

CAPABILITY	WHAT YOU GET
Homepage	A warm, story-driven homepage in the direction of the reference sites you liked: your brand front and center, what you do, who you serve, and a clear path to contact you. Subtle motion as the page loads so it feels alive, even at the starter tier. Loads fast and reads clean on phone or desktop.
About Nichole	Your story as a Charlotte broker: background, how you work with clients, and the person behind the brand. Gives a prospect a reason to call you instead of the next agent Zillow suggests.
Buying with Hyland Haus	A page for buyers: how you guide them through the process, what working with you looks like, and a prompt to reach out and start the conversation.
Selling with Hyland Haus	The seller-side mirror: how you market a home, what sellers get when they list with you, and a prompt to request a consult.
Contact	A contact form that lands directly in your email inbox, so no inquiry slips past you. Booking-link setup isn't included: if you set one up yourself (Calendly or similar), we'll link it on the site.
Featured listings section	A homepage section loaded at launch with listing cards for your current and recently sold homes. How the cards link gets decided together at kickoff. Keeping the listings current month to month is a future add-on, priced separately. The MLS-connected feed that updates itself is the bigger upgrade when you're ready.
Logo placeholder	A clean typographic Hyland Haus wordmark as a placeholder until your logo is ready. When you have the final logo, we swap it in at no charge.

CAPABILITY	WHAT YOU GET
Brand guidelines PDF	A 3-page branded guide to the Hyland Haus identity we build for the site: your colors, fonts, logo usage, and how to apply them, with what each choice means for your brand. Hand it to any printer, designer, or sign shop and your cards, signs, and social posts will match the site.
On-page SEO foundation	Titles, descriptions, and page copy tuned so "Hyland Haus" and your name surface on search, with the groundwork laid for ranking on Charlotte buyer and seller searches as the site grows.
Domain + launch	The site goes live on hylandhaus.com (already purchased), with hyland.haus pointing to it. Production-grade hosting, HTTPS, and a walkthrough at launch so you know how the site runs and how to send us changes.

Not in the starter package: *The MLS-connected listing feed, monthly listing updates, video-driven layouts, and the CRM and automation work we talked through on our call. Each is a separate upgrade on the roadmap below, built to add onto this site and priced when you're ready.*

Timeline

3-4 weeks from kickoff to launch, depending on content turnaround.

- **Week 1:** Kickoff call. We lock the design direction from the agent sites you've been collecting and confirm the five pages. You provide photos, bio, and listing links. Niewdel writes the page copy from what you provide.
- **Weeks 2-3:** Design and build, with check-ins along the way so we catch direction issues early instead of at the end. The build includes two design revision rounds; additional rounds are scoped separately.
- **Week 4:** Content polish, SEO foundation, and launch on hylandhaus.com. On call for the first 48 hours after launch.

Investment

Starter website build

Everything in the starter scope above: five pages, contact form, featured listings section, logo placeholder, brand guidelines PDF, SEO foundation, domain setup, hosting configuration, launch, and walkthrough. 3-4 weeks from kickoff to launch.

\$2,499

ONE-TIME

Monthly managed program

OPTION A

Light site updates and changes: edits to what's already on the site, like text changes, photo swaps, and contact-info updates. Plus ongoing SEO work month to month and a monthly traffic and rankings snapshot emailed to you. The site stays hosted on Niewdel infrastructure. Starts the month after launch. Domain renewals after your prepaid year are invoiced annually at registrar cost, about \$75 a year for both domains. Not included: monthly listing updates (a future add-on, priced separately) and anything that adds to the site, like new pages, new sections, or design changes; those are quoted as upgrades. Cancel any time with 30 days notice; canceling converts to the \$999 ownership transfer, so the site and domains go with you.

\$299

PER MONTH

Final delivery and ownership transfer

OPTION B

The alternative to the managed program. We transfer the full site and migrate both domains to your own accounts at launch. Your all-in total is \$3,498, and there are no further fees to Niewdel.

\$999

ONE-TIME AT LAUNCH

Starter build: \$2,499 one-time. Then one of two paths: the \$299/month managed program (Option A), or a one-time \$999 ownership transfer at launch (Option B, \$3,498 all-in). You'll mark your pick when you sign; the project doesn't kick off without one.

PAYMENT TERMS

- **Build fee:** 50% upfront (\$1,249.50) to begin work, 50% (\$1,249.50) at launch.
- **Option A (managed program):** \$299 invoiced monthly, starting the month after launch.
- **Option B (ownership transfer):** \$999 invoiced at launch, alongside the final build payment.
- Payment by ACH or check mailed to Niewdel. ACH preferred.

WHAT EACH PATH COSTS

PATH	WHAT YOU PAY	6-MONTH TOTAL
Option A • Managed program	\$2,499 build + \$299/month	\$4,293
Option B • Ownership transfer	\$2,499 build + \$999 at launch	\$3,498 all-in

The Option A total covers the first 6 months of the program and continues at \$299/month after; Option B is everything you will ever pay Niewdel.

Managed by us, or owned by you. Pick one.

Every starter build ends in one of these two paths. Mark your pick when you sign the proposal; the project doesn't kick off without a selection.

1. Option A: Monthly managed program at \$299/month. The site stays on Niewdel infrastructure. We handle light site updates (edits to existing pages: text, photos, contact info), do ongoing SEO work month to month, and email you a monthly traffic and rankings snapshot. New pages, new sections, and design changes are quoted separately as upgrades. Domain renewals after your prepaid year are invoiced annually at registrar cost, about \$75 a year for both domains. Cancel any time with 30 days notice; canceling converts to the \$999 ownership transfer, so the site and domains go with you.

2. Option B: Ownership transfer at \$999 one-time. We transfer the full site and migrate both domains to your own accounts at launch. You own everything outright and handle hosting, renewals, and updates on your side. Your all-in total is \$3,498, and there are no further fees to Niewdel.

The bigger roadmap

The starter site is step one. Each piece below bolts onto it and is scoped and priced separately when you're ready. That's what "start small and build onto it" looks like in practice.

UPGRADE 1

Monthly listing updates

We keep your featured listings current as homes list, go pending, and sell, so the site never shows a stale listing. Priced separately, available any month after launch.

UPGRADE 2**MLS-connected listings**

Your listings appear on your site and update themselves as they go active, pending, and sold, pulled from the same source Zillow uses. First step is confirming the MLS-connected account through your brokerage; the upgrade gets scoped as soon as we have that answer.

UPGRADE 3**Video-forward design expansion**

The moving, video-driven feel you love from your Zillow Showcase listings, brought to your own site: motion-rich layouts, richer page sections, and more categories. This is the layout-complexity jump between the starter tier and the \$4,000-\$8,000 reference sites.

PHASE 2**Custom CRM + automation**

What we walked through on our discovery call: a CRM mapped to how you actually work, automated client updates and anniversary messages, email sorting and attachment filing, and MLS data prep. Replaces the sticky notes, the spreadsheets, and Follow Up Boss. Gets its own discovery and quote when you're ready.

Liability & security

Niewdel is responsible for the website's code, content configuration, and security posture during the build and (if Option A is elected) the program period. Hosting on production-grade infrastructure with HTTPS, security patching, automated backups, and uptime monitoring.

Niewdel is not responsible for third-party service outages (registrar, hosting providers); your own account credentials; modifications made by others after launch or after transfer; content liability for material you provide (including listing photos and MLS-regulated disclosures); or indirect, consequential, or punitive damages.

Liability cap: Niewdel's total liability is capped at the greater of total fees paid under this agreement at the time the claim arises or the build deposit actually paid. Survives termination.

Your obligations: Maintain reasonable security on the accounts you control (your email, and your own hosting and registrar accounts after an Option B transfer), and notify Niewdel within 24 hours of any suspected compromise on your side.

Next steps

1. Review this proposal. Send questions back any time, and happy to walk through it on a call before you decide.
2. Sign below, mark **Option A** (managed program) or **Option B** (ownership transfer), and pay the 50% build deposit of **\$1,249.50** (ACH preferred, check by mail accepted).
3. We schedule a 30-minute kickoff call to lock the design direction from the agent sites you've been collecting.
4. 3-4 weeks later, hylandhaus.com is live, and every upgrade from there builds onto it.

Approval window: Pricing held for 30 days from proposal date. If we kick off by July 12, 2026, the timeline above stands. After that, scheduling depends on capacity.

PICK YOUR PATH

Mark one. The project doesn't kick off without a selection.

- ☐ **Option A • Monthly managed program** \$299/month, starting the month after launch
- ☐ **Option B • Ownership transfer** \$999 one-time, at launch
